STRENGTHEN YOUR BRAND USING NEW NORDIC FOOD

NEW NORDIC FOOD SHOWS THE REST OF THE WORLD WHO WE ARE

The New Nordic Food program's aim is to strengthen the Nordic brand internationally through food. For example, by using Nordic ingredients and produce in all embassy kitchens as well as in catering services within Nordic businesses operating abroad.

All Nordic kitchens have their own unique traits, whether it's Danish, Finnish, Icelandic, Norwegian, Swedish or originates from Greenland, Aaland or the Faroe islands. On the website we show how you can use all the different culinary traditions to create a new global cuisine, the New Nordic Kitchen.
